

Can You Hear Us in Nebraska?

# Hey Ivan! Listen

**Verizon's annual meeting** is happening on May 1st out in Lincoln, Nebraska. (More than a thousand miles away from most Verizon members. Coincidence?)

CWA & IBEW activists are delivering our proxies and our message to Ivan Seidenberg and the Board of Directors:

- **A fair contract in August that protects our health care**
- **Every Verizon job a union job**
- **Stop the union-busting in Wireless & Business.**

**To former managers:**  
**“Verizon has selected The Bartech Group . . . to provide us with a contingency workforce if a work stoppage occurs.”**

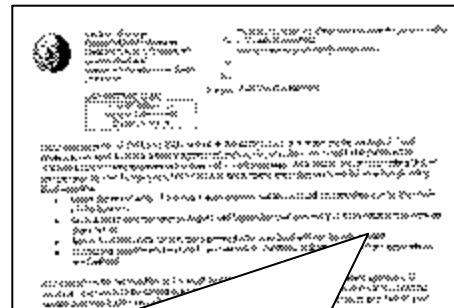

Here Come the Scabs

Verizon is **already lining up scabs** for a possible strike in August. They've sent letters to retired managers asking them to sign up with a scab contractor.

And Verizon has also told managers in both East and West to be ready to cancel vacation plans in August and September.

Make sure Verizon knows we'll be ready, to do whatever it takes for as long as it takes!

**To all managers, East & West:**  
**“Do not make commitments in Aug. and Sept. that prevent you from returning to work on short notice.”**

**Join Us on The Picket Line at Your Verizon Work-site! ■ Thursday, May 1<sup>st</sup> ■**  
**Let's make sure Ivan can hear us in Nebraska!**
